

施洛特环境永续的新标准 - 碳足迹计算

Schlötter New Standard for Environmental Sustainability CO2 Footprint calculation

在全球环境议题日益受到关注的今天，施洛特秉持著对地球的承诺，积极采取行动，致力于打造更绿色、更可持续的未来。我们的专业团队以严谨且科学的方式，对旗下所有产品进行全方位的碳足迹计算，从原料加工、生产制造、成品运送到终端使用，逐一精确分析每个环节可能产生的二氧化碳排放量。

As global environmental issues receive increasing attention, Schlötter upholds its commitment to the planet by taking proactive steps to create a green and more sustainable future. Our professional team uses rigorous and scientific methods to perform a comprehensive carbon footprint assessment for all our products. From raw material processing, production, and manufacturing to product transportation and end-use, we meticulously analyze the potential carbon emissions at every stage.

施洛特承诺 Our commitment

- 严格监控从原料到终端使用的碳排放
Strictly monitor carbon emissions from raw materials to end-use
- 积极研发低碳制程技术
Actively develop low-carbon manufacturing technologies.
- 持续优化供应链，实现全程减碳
Continuously optimize the supply chain to achieve overall carbon reduction.

碳排计算流程 - 原料到制造 Company CO₂ Footprint
